TERM 3 WEEK 9

FRIDAY 21ST SEPTEMBER

Principal's Report

NAPLAN Results 2018

We received our NAPLAN results at the beginning of this week and we are looking forward to analysing the data we received to provide us with a snapshot of learning achievement at our school.

While the data we receive does allow us to look at trends in individual achievement, student growth and breakdown areas of strength and future focus, it must be viewed with a very contextual lens.

Results for individual students can, at times, be quite surprising and vary greatly to the work they do in the course of their normal learning program. Some students who are performing well academically, struggle with the format of such testing while others seem to do well with the format.

Should your child's results be different to what you expect or if you would like to discuss your child's results with his/her class teacher, feel free to make an appointment to speak to them. After all, they are working with your child on a daily basis and can paint a greater picture of your child's

progress than a graph from a one-day test.

Science Discovery Day

Last Friday we attended The Science Discovery Day at Dungog High School. It was a fun and successful day. The bridge activity was fun. We had to make a bridge that was able to support a cart that went over it. After each successful crossing more weights were added. You only had masking tape, straws, cardboard, paddle pop sticks and paper to construct the bridge. The String along activity consisted of a board that had screws in it. You had to weave around the screws to get points but if you missed a screw you lost 10 points. The water wheel activity was a new challenge. You had an axle, paddle pop stick, straws and foam to create the wheel that generated power when the water was poured over the wheel and it spun. So overall it was a fun day and we came third out of nine teams. Thanks Stroud Road School for joining our team.
